

Tega commits itself to deliver unique, highly efficient wear resistant screen media which offer clients increased screening efficiency, reduced downtime and cost/tonne of material handling.

Optiscreen Media Benefits:

1 Increased screen efficiency:

- Correct aperture selection
- Elimination of clogging and blinding
- Optimisation of available open area

2 Reduced downtime:

- Faster replacement of panels

3 Longer wear life:

- Using advanced grades of rubber and polyurethane
- Reducing the operational cost per tonne
- Maintain aperture integrity
