

Over the last 40 years Tega has built a product database comprising of over 5000 conveyors and chute components. The in-house Research and Development team has assimilated this combined knowledge and effectively leveraged available technologies and software to provide clients with responsive design solutions focussed on the client's needs.

## Clean Safe Uninterrupted Conveyors

### Ultimo Conveyor Component Benefits

- ✓ Eliminate manual / mechanised cleaning of the material from the sides of the conveyor.
- ✓ Eliminate unwanted belt stoppages.
- ✓ Increase the life of the conveyor belt and its components.
- ✓ Reduce operation, maintenance and power costs.
- ✓ Reduce loss of materials while conveying.
- ✓ Reduce the cost per ton of material handled.
- ✓ Eliminate spillage and dust.
